Improv Landscape Workshop

Ever want to try pictorial quilting but don't know where or how to start? Join me for a half-day of fun to learn fusible raw-edge applique and what thought process that goes into determining landscape design composition. We are going to fly by the seat of our pants; but for those not ready to go full-improv, the pattern will be there for a more structured class. Project is fat quarter sized and very do-able.

Time permitting, you may be able to do some quilting. If running out of time, I will demonstrate landscape quilting.

Required Pattern: \$4 Optional kit \$20 (includes pattern)

Fabric needed:

I prefer using batiks when I can because it doesn't fray as much and doesn't have that "whitish" look on the back of the fabric. That being said, this is a wall/art quilt and the sky is the limit as to types of fabrics that can be used (cotton prints, burlap, home dec., etc). Just make sure that the fabric you choose doesn't melt when you put a hot iron on it!
